

Today's Guest Speaker:

SETH GRUBER

**Pro-Life Speaker & Activist,
Host of “Unaborted” Podcast**

On May 8, 1945, the Nazi holocaust to exterminate the Jews had finally come to an end, but the world was blind – unaware – to an even greater genocide movement taking the stage quietly in developing cultures and liberal arenas, born from the same racist and radical roots in the early 1900's in the United States and abroad. Today we give this holocaust a name: abortion.

The battle to end the murder of unborn and born babies is very real with horrific absolutes, and continues to grow exponentially in the United States, knocking at the front doors around the world with indoctrinated deception. The United States alone has delivered over 64,000,000 million deaths of unborn and born babies through abortion since the first abortion clinic in 1916, and the legalization of abortions in 1970. This is war of extermination fed and fueled by the omission of knowledge, sensational deception by the enemy, and the ignorance of those standing on guard with no expression – no conscience.

In any war battle that produces massive loss of life beyond apprehension, the death, chaos and rage gives birth to new faces

of vigor and leadership that will fight to build a crusade to end this genocide of abortion. One such person that has become a national voice in this battle to end abortion is Seth Gruber, the son of a pregnancy resource center director, raised since infancy in the pro-life movement, educating the public from the age of 19 on the truths and lies of this evil, and changing the mainstream opinion on pro-abortion with the ultimate goal to end this extermination of unborn and born life.

Embracing the battlefield of abortion in his early college years, Seth first built the Students for Life Organization at Westmont College, which continues to this day, and he never looked back moving forward with a voice to educate, persuade, motivate, and inspire everyday people to take up their cross against abortion. Seth's crusade was met early on the battlefield by both Christians and non-Christians threatening to silence his voice. Seth's zeal and passion to speak the truth on abortion only sprouted into a grand public movement to meet the pro-abortionist eye to eye, face to face with no reservations, and with total peace and winsome spirit.

Seth Gruber's clear, concise, and persuading approach has impacted thousands across the United States, providing the tools for an audience to change the mindset of the pro-abortion population. In his later years in college, he challenged the institutions and others for their refusal to take a formal position on abortion, which accelerated the appreciation and understanding of Seth's work among pro-life advocates, pregnancy facilities, churches, and the political domains across the United States. Seth quickly discovered the ignorant and widely indolent culture surrounding him both in and out of the church, and in the universities, which he responded with coordinated educational campaigns and booth displays, engaging with thousands of students on the topic of abortion. It

also became obvious to Seth, the church needs to be awoken on abortion.

Seth's impact is real, changing the hearts and minds of so many on their position on abortion. Joining the Life Training Institute as a pro-life speaker, Seth is now a nationally renowned voice for life, the founder and president of The White Rose Resistance, which has its origins during Nazi holocaust to end the racism infiltrating the world. Pro-Life Ministries is another recent project that Seth is facilitating at churches across the 50 States and abroad. Giving countless speeches to over half a million people so far, and reaching millions through media, Seth Gruber has launched a powerful movement that is moving forward, impacting today's generation and preparing a future generation on all platforms across the United States.

Seth Gruber is committed to this battle to end abortion, educating and changing the way people think and respond to this heinous evil with the hope that the date – like May 8, 1945 – will be entered into the history books closing the final chapter the final to an end of this holocaust of unborn and born babies.

“For you formed my inward parts; you knitted me together in my mother’s womb. I praise you, for I am fearfully and wonderfully made. Wonderful are your works; my soul knows it very well. My frame was not hidden from you, when I was being made in secret, intricately woven in the depths of the earth. Your eyes saw my unformed substance; in your book were written, every one of them, the days that were formed for me, when as yet there was none of them.”

Psalm 139:13–16 (ESV)
